ANTI-AUTHORITARIAN WINTER CONVERGENCE

SATURDAY, FEB 24th

3-5pm Top floor of the Evergreen Library

WHERE is it that we find ourselves? Where do we go from here? How do we increase rather than deplete our power?

THE grey silence of the rain and ocean winds form a stark backdrop for the burning heat of our raging hearts: the seeming triumph of conservative and outright fascist forces across the US and the world appears as an unstoppable wave of repressive violence; the liberal forces of "resistance" continually reveal their complete subservience to the normal functioning of the capitalist nightmare; and yet we are still here, growing connectivity and friendship, building capacity to care for each as we are strike fear into the hearts of those who seek to dominate us all.

JOIN US for free food, radical literature, games, and companionship, as well as discussions and work shops on: techniques of anarchist psychic warfare, self-defense training, cyber and phone security tutorials, medic training, insurrectional strategy, Olympia and Northwest current events debrief, legal trouble updates, fundraising, anti-repression, solidarity with ongoing struggles everywhere, and more.

LET'S SET HELL ON FIRE
