# COMMONS

the olympia city government closed the so-called “artesian commons”, a gathering place in downtown where many of the most disenfranchised members of our community spent time. this is just the latest assault in a brutal and violent campaign the city and police have undertaken to push houseless, poor, and otherwise ‘undesirable’ populations out of our town. we do not accept their control of our lives and restrictions of our movement.

**WE REJECT THE ENCLOSURE OF THE COMMONS!**
