

REMEMBER 2020, 1968, 1878, 1791

WE CAN WIN

Thousands of years of kings, queens, emperors, presidents, & ministers demanding obedience. 500 years of crackers enslaving & colonizing this planet. 250 years of anglo/yankee domination.

Trump this, Musk that. Democrats, Republicans, Zionists, Confederates, Fascists, Conservatives, Liberals, Progressives. So many flavors of the same expired bullshit.

2020: Cops executed George Floyd. A police station was burnt down. For a brief moment, the world opened up.

1968: White power executed MLK. Black communities erupted into rebellion. For a brief moment, the world opened up.

1878: Indigenous peoples in the South Pacific rose up in arms against european colonizers attempting to exterminate their communities & hijack their homelands. For a moment, the world opened up.

1791: Enslaved Africans & their descendants began an uprising in the Caribbean, destroying property, profit, & slavery. For a long moment, the world opened up.

Whether a handful of friends or a massive crowd, we know that the footsoldiers of every regime can be defeated. The secret is to begin.

*In Memory Of Our Fallen;
Let us turn their cities into funeral pyres.
In Memory Of Our Fighters;
Let us honor your names with fire and gunpowder.

*Look for those pushing
and help them push harder.*

Move together. Be water.

*They can control a march of 10,000 —
they can't control 10 marches of 1000.*

*De-arrest. Don't let people get grabbed.
If they do, don't let their cars or busses leave.*

*They only care about money, so
causing monetary losses
is your only vote.*

*On the inside, the demonstration
is an organism of care and support.*

*On the outside, it is
ferocious and uncontrollable.*

Without their toys they are powerless.

*No one is coming to save us.
Everything is at stake.*
